

Universal Plant Viewer Product Suite

Simple and easy viewer,
providing access to the 3D
model for all project
stakeholders

FOR USE WITH

Devices

- Windows®
- Android®
- iOS®

Intergraph

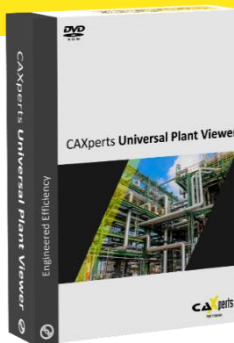

- Smart™ 3D
- PDS®

AVEVA

- PDMS™

Generic

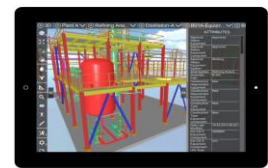

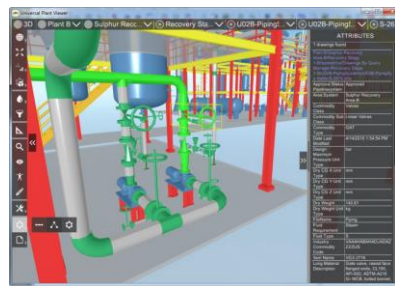

- IDF
- Point clouds (under development)

CAXperts Universal Plant Viewer

FREE AND EASY TO USE VIEWER FOR THE PLANT INDUSTRY

- Viewing is free
- Fast viewing also for huge plant models
- Available on Windows®, Android® and iOS® devices
- Streaming technology
- Mouse and/or touch usage

SPECIAL FUNCTIONS FOR PLANT DESIGN

- Attribute- and/or hierarchy-based colouring – data visualisation for better understanding
- Highlight connected piping systems with attached equipment
- Centre of Gravity calculation
- “Walk-along-a-line”
- Commenting
- Clever volume clipping
- Link 3D model objects to/from external systems
- Easy to use search function

STREAMING MODEL DISTRIBUTION

- No need to copy large viewing files around
- Offline mode available
- IP protection – restrict access to the model to a selected number of users and for a specified time frame

BENEFITS

• Simple to use

Free and easy viewing brings models to a wider audience. There is no specialist software needed. No training requirement – ideal for infrequent users.

- Time and cost savings through less rework based on a better understanding through clearer communication. Reduction of engineering queries.
- The 3D PDF files can be used to support marketing initiatives within the project bidding process.
